Experience

- **Frontend Developer**
Bank of America, Chennai
10/2022 - Present
 - Developing and maintaining the frontend of the bank's website.
 - Utilizing HTML, CSS, and JavaScript to create responsive and visually appealing user interfaces.
 - Collaborating with the design team to implement and enhance website features.
 - Ensuring the website's compatibility across various browsers and devices.
 - Implementing and adhering to the bank's own frontend framework for consistency and efficiency.
 - Working closely with the design team to translate design concepts into functional web pages.
 - Collaborating with backend developers to integrate frontend components with server-side logic.
 - Participating in cross-functional meetings to ensure alignment with project goals.
 - Conducting thorough testing to ensure the website functions seamlessly across different devices and browsers.
- **Web Developer**
Capgemini, Bengaluru
07/2019 - 10/2022
 - Developed the UI design for a shipment service company, incorporating HTML, CSS, Bootstrap, and JavaScript.
 - Utilized HTML, CSS, and JavaScript to create user interfaces with a focus on intuitive navigation and engaging design.
 - Collaborated with cross-functional teams to integrate design elements into web applications.
 - Ensured the website's responsiveness and visual appeal for an optimal user experience.
 - Designed and developed static and interactive reports using Pentaho, a powerful reporting and data integration tool.
 - Translated complex data sets into visually appealing and informative reports for stakeholders.
 - Used MySQL and jQuery to implement effective search and filtering functionalities for data retrieval.
 - Leveraged MongoDB for data storage, ensuring efficient handling of collections in a scalable manner.
 - Created comprehensive wireframes for an Interview Scheduling Application, outlining the layout and functionality.
 - Designed templates for PowerPoint presentations, maintaining a consistent and professional visual identity for the organization.
 - Extended design skills to craft visually appealing CV templates for internal use within the organization.

Education
